

## Wisconsin Healthcare Alliance – STUDENT/RESIDENT Immunization and Health Requirements

<p><b>MMR Measles, Mumps &amp; Rubella</b></p>	<p>Documentation of 2 Doses of Vaccines; <b>OR</b> Positive Rubella, Rubeola, &amp; Mumps Titers Documented Serologic Immunity (titer) Must be appropriately spaced and given according to CDC guidelines (after first birthday).</p>
<p><b>Varicella</b></p>	<p>Two (2) Varicella Vaccination Dates <b>OR</b> Positive Varicella Titer</p>
<p><b>Influenza Vaccine</b></p>	<p>November 1 to March 31 for Fall session/semester, <b>and</b> prior to any Winter/Spring session/semester. Students/Residents in clinicals/rotations between April 1 and October 31 are exempt from the flu requirement. If a student/resident requests an “exemption”, he/she will need to follow the site policy.</p>
<p><b>Tdap, Tetanus, Diphtheria &amp; Pertussis</b></p>	<p>Documentation of a one-time dose of the Tdap vaccine and then Td every 10 years.</p>
<p><b>Hepatitis B Vaccination</b></p>	<p>HEPLISAV-B (2 Vaccine Series) <b>OR</b> Hepatitis B (3 Vaccine Series), <b>OR</b> Post Vaccination Antibody Screen - This is a series of either two or three vaccinations and post vaccination antibody screen. The vaccination series is voluntary but is highly recommended for all students/residents entering a health career field. <b>OR</b> a Positive Hepatitis B Antibody Titer <b>OR</b> Signed Declination Form</p>
<p><b>Tuberculin Test</b></p>	<p>Baseline TB screening using a two-step TB skin test or single blood assay test IGRA (QuantiFERON Gold or T-Spot). Annual single TB skin test or blood assay test thereafter.  If a student/resident tests positive for active TB disease, he/she must have an initial post positive chest x-ray. Follow-up will be determined by the facility.</p>
<p><b>Positive Post TB Skin Test Conversion – Chest X-ray</b></p>	<p>If a student/resident received a positive PPD result, he/she must provide the following documentation:</p> <ul style="list-style-type: none"> <li>• Positive TB skin test results</li> <li>• Negative chest x-ray dated post positive TB skin test conversion</li> <li>• Complete annual health symptom TB specific questionnaire</li> </ul> <p>If a student/resident is positive for active TB disease, he/she must participate in an active treatment plan to be reviewed annually. The student/resident is not eligible to participate in clinical practicum/rotation until the medical provider determines he/she is not communicable.</p>
<p><b>Physical Exam &amp; Health Hx</b></p>	<p>Physical exams may be required by certain agencies.</p>
<p><b>Medical Conditions/ Injuries Requiring Immediate Student/Resident Restrictions</b></p>	<p>Students/Residents are responsible to immediately notify their school/college designee of sudden changes in their medical conditions/injuries <u>prior</u> to the next scheduled clinical day.</p>
<p><b>Drug Screen</b></p>	<p>Drug screens may be required by certain agencies.</p>
<p><b>CPR &amp; CPR Renewal</b></p>	<p>American Heart Association BLS training must be completed within the last two years. HeartSaver and online-only classes without a classroom skills component are <u>not</u> acceptable for health professionals.</p>

**IMPORTANT:** Healthcare requirements are determined by the organization and the GGBHA, not by a specific department within an organization. A specific department or unit cannot add to and/or change these requirements.
