

**Wisconsin Healthcare Alliance - Immunization & Health Requirements
for Students / Advanced Practice Providers / Residents**

MMR Measles, Mumps & Rubella	Documentation of 2 Doses of Vaccines; OR Positive Rubella, Rubeola, & Mumps Titers Documented Serologic Immunity (titer) Must be appropriately spaced and given according to CDC guidelines (after first birthday).
Varicella	Two (2) Varicella Vaccination Dates OR Positive Varicella Titer
Influenza Vaccine	November 1 to March 31 for Fall session/semester, and prior to any Winter/Spring session/semester. Students/advanced practice providers/residents in clinicals/rotations between April 1 and October 31 are exempt from the flu requirement. If a student/advanced practice provider/resident requests an “exemption”, he/she will need to follow the site policy.
Tdap, Tetanus, Diphtheria & Pertussis	Documentation of a one-time dose of the Tdap vaccine and then Td every 10 years.
Hepatitis B Vaccination	HEPLISAV-B (2 Vaccine Series) OR Hepatitis B (3 Vaccine Series), OR Post Vaccination Antibody Screen - This is a series of either two or three vaccinations and post vaccination antibody screen. The vaccination series is voluntary but is highly recommended for all students/advanced practice providers/residents in a health career field. OR a Positive Hepatitis B Antibody Titer OR Signed Declination Form
Tuberculin Test	Baseline TB screening using a two-step TB skin test or single blood assay test IGRA (QuantIFERON Gold or T-Spot). Annual single TB skin test or blood assay test thereafter. If a student/advanced practice provider/resident tests positive for active TB disease, he/she must have an initial post positive chest x-ray. Follow-up will be determined by the facility.
Positive Post TB Skin Test Conversion – Chest X-ray	If a student/advanced practice provider/resident received a positive PPD result, he/she must provide the following documentation: <ul style="list-style-type: none"> • Positive TB skin test results • Negative chest x-ray dated post positive TB skin test conversion • Complete annual health symptom TB specific questionnaire If a student/advanced practice provider/resident is positive for active TB disease, he/she must participate in an active treatment plan to be reviewed annually. The student/advanced practice provider/resident is not eligible to participate in clinical practicum/rotation until the medical provider determines he/she is not communicable.
Physical Exam & Health Hx	Physical exams may be required by certain agencies.
COVID Vaccination	The COVID vaccine may be required by certain agencies. COVID guidelines and deadlines need to be followed per agency. An approved exemption from one agency does not mean exemption from other agencies.
Medical Conditions/Injuries Requiring Immediate Student/Advanced Practice Provider/Resident Restrictions	Students/advanced practice providers/residents are responsible to immediately notify their school/college designee of sudden changes in their medical conditions/injuries <u>prior</u> to the next scheduled clinical day.
Drug Screen	Drug screens may be required by certain agencies.
CPR & CPR Renewal	American Heart Association BLS training must be completed within the last two years. Heartsaver and online-only classes without a classroom skills component are not acceptable for health professionals.

IMPORTANT: Health care requirements are determined by the organization and the GGBHA, not by a specific department within an organization. A specific department or unit cannot add to and/or change these requirements.
